

REMARKS

By this Amendment claims 1 and 3 have been amended. Claims 1-3 are pending in the present application.

Claims 1-3 stand rejected under 35 U.S.C. § 112, second paragraph, on the basis of indefiniteness. Claim 1 has been amended to clarify that steam reform reactants are used, and that the first and second product gases are withdrawn from the first and second reaction spaces. Claim 3 has been amended to correct grammar. The claims are submitted as particularly pointing out and distinctly claiming the subject matter of the invention.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application to issue.
